Notes

1. Normally, any complaint should be made by the customer or someone acting on their behalf and at their request. Only in exceptional circumstances will the NICEIC offer its Complaints Procedure to a third party.
2. The NICEIC Complaints Procedure only applies to the technical standard of work carried out by an Approved Enterprise.
3. If no, The NICEIC Complaints Procedure does not normally apply.
4. Your complaint must be registered with the NICEIC less than three years after the date the electrical work was completed.
5. If yes, The NICEIC Complaints Procedure does not apply.
6. May also be known as 'Electrical Installation Completion Certificate'
7. May also be known as 'Minor Electrical Installation Works Form'.
8. Where these documents do not clearly define the extent of the work that was carried out by the Approved Enterprise, please attach copies of any relevant papers (such as correspondence) which do define the extent.
9. The NICEIC does not normally become involved unless it can be demonstrated that the complainant has already brought the matter to the Approved Enterprise's attention in writing and given the Approved Enterprise opportunity to respond.
10. The NICEIC Complaints Procedure does not apply to financial issues.
11. The NICEIC Complaints Procedure does not apply if the work you are complaining about has already been corrected to your satisfaction.
12. Only describe electrical safety issues. Contractual, cost and functional performance matters are outside the scope of The NICEIC Complaints Procedure. Try to separate the matter you are complaining about into distinct electrical items such as consumer unit, cables, socket-outlets, certification or problems with a Periodic Inspection Report.
If available, please enclose photograph(s) of the aspects of the electrical work being complained about.
13. None of the statements in the declaration are to be deleted or altered as this could result in the NICEIC being unable to assist in resolving your complaint by means of its Complaints Procedure.
14. The NICEIC Complaints Procedure cannot operate unless the complainant will allow the Approved Enterprise to be present at inspections, is willing and able to give access for the Approved Enterprise to carry out any necessary remedial work and undertakes to arrange access for the inspections(s) and remedial work if required to do so.

For further information on The NICEIC Complaints Procedure please see the leaflet provided by the NICEIC Group Ltd.
